

## DESERTSTING (DS - 16 & DS - 8)

# DELIVERING RELIABILITY. DELIVERING PRECISION.

The Desert Sting is a family of light weight, air platform released, precision guided, glide weapons (GGW). The DS-16 and DS-8 are differentiated by weight and warhead size.

Desert Sting utilises inertial guidance augmented by global navigation satellite system (GNSS) information (GAINS). A semi-active laser (SAL) seeker configuration further improves accuracy performance against designated targets.
