MAINTENANCE, REPAIR AND OVERHAUL (MRO)

Providing depot level maintenance Repair and Overhaul services , comprehensive set of In-house services and capabilities. Provide complete vehicle, component and, platform rebuild comprehensive vehicle overhaul down to the frame, refurbishment, modernization and upgrades.

Services include:

- VEHICLES REBUILD
- PRODUCT INTEGRATION
- VEHICLES AND COMPONENTS ELECTRONICS AND ELECTRICAL REPAIR & OPTICS
- COMPONENTS REPAIR (ENGINES TRANSMISSIONS, DIFFERENTIALS)
- VEHICLES AND COMPONENTS UPGRADE
- COMPONENTS REFURBISHMENT
- VEHICLES INTERIOR AND EXTERIOR BODY WORK
- PAINTING AND WELDING PRODUCT INTEGRAION
- FABRICATION

TECHNICAL TRAINING

We take system approach for training for all types of workforce enhancement and development programmes; we deliver military maintenance depots. AL TAIF also designs and delivers quick modular training updates to ensure technicians in the field have the latest skills and techniques

Our workforce enhancements include:

- TAILORED CURRICULUMS BUILD THROUGH TRAINING NEEDS ANALYSIS (TNA)
- SYSTEMS APPROACH TO TRAINING (SAT)
- MECHANICAL, ELECTRICAL -ELECTRONICS AND ALLIED TRADE TRAINING
- INSTRUCTOR CERTIFICATION COURSES
- TRANSFER OF TECHNICAL SKILLS CLIENTS
- VR AND AR MAINTENANCE TRAINING

SUPPLY CHAIN MANAGEMENT

procurement services that maximize customers' asset performance and availability. We leverage big data and analytics to develop the most effective maintenance forecasts and planning schedules Our services combine both capabilities , alongside our long-term partnerships with OEM's to deliverWe deliver value-added inventory management and integrated solution

Services include:

- RECEIPT, STORAGE, AND ISSUANCE OF SPARES AND REPAIRABLES
- ORDER FULFILMENT AND DISTRIBUTION
- INVENTORY CONTROL
- DEMAND ANALYSIS AND REPORTING
- PRESERVATION AND PACKAGING
- CATALOGUING
- CONTINGENCY PLANING AND RESERVATIONS
- VENDOR QUALITY CONTROL
- SPARES AND REPAIRABLES

ENGINEERING

Our engineering team develop innovative solutions, upgrades and technology integration across a wide range of land platforms and systems that help strengthen client capabilities.

Services include:

- PREVENTIVE AND PREDICTIVE SOLUTIONS
- FAILURE ANALYSIS
- MATERIALS TESTING
- MODELING AND SIMULATION
- VEHICLE IMPROVEMENT AND DEVELOPMENT
- REVERSE ENGINEERING AND MANUFACTURE
- NEW TECHNOLOGY APPLICATION STUDIES
- SYSTEM INTEGRATION AND DESIGN

CALIBRATION AND TESTING

Our state-of-the-art calibration laboratory is a trusted and respected calibration services that supports the UAE Armed Forces in assuring and maintaining the quality of its monitoring and measuring equipment.

Services include:

- ELECTRICAL CALIBRATION
- TEMPERATURE CALIBRATION
- BALANCE CALIBRATION
- PRESSURE CALIBRATION
- TORQUE CALIBRATION
- DIMENSIONAL CALIBRATION

FLEET PROGRAM MANAGEMENT

Highly experienced life cycle management program of land platforms and systems to help customer rapidly, efficiency and effectively deploy world- class program management system.

Support Projects of any scale and complexity, working to build customer in- house capacity to organize and control timely repair of large fleets of equipment's , platforms and premises

Services include:

- MAINTENANCE AND LIFECYCLE PLANNING FOR EQUIPMENT, PLATFORMS, AND PREMISES
- FACILITIES MANAGEMENT PLANNING, ORGANIZING, COORDINATING, DOCUMENTING, AND SUPERVISING
- PREVENTATIVE, CORRECTIVE, AND SCHEDULED MAINTENANCE PLANNING
- CAPEX ASSET REPLACEMENT AND UPGRADE PLANNING
