

**HUNTER 10**

**AUTONOMOUS  
LOITERING  
MUNITIONS**

The HUNTER 10 is a container- launched, fixed-wing, tube launched loitering munitions that provide aerial strike capabilities on a designated target up to 100km from the launch point. The loitering munitions fly autonomously to an intended target area and loiter while searching for targets. Once a target is identified, a remote pilot designates the target and activates engagement via man-in-the loop control.

# SPECIFICATIONS

MTOW	Up to 50kg
Payload	10kg
Total flight time	150 minutes
Cruising airspeed	33m/s
Engine	Gasoline
Communication range	Up to 100km
Wingspan	3m
Length	2.5m
Launcher elevation	Up to 45°
