

CARACAL

CSRM

FLEXIBLE FIREPOWER. PRECISION PERFORMANCE.

MULTI-CALIBRE SNIPER RIFLE

Designed for both military and law enforcement deployment, the multi-caliber CSRM provides the operator with first-shot precision and repeatability.

Featuring an innovative proprietary (patent pending) barrel exchange mechanism and a monolithic aerospace-grade aluminum receiver. The barrel can be changed in less than 2 minutes by the operator with a single tool while maintaining weapon zero and precision. A single system can be tailored for each mission from long range military sniping to police urban operations. The length of pull, cheekpiece height and butt pad position are tool-less. CSRM also has a suppressor-ready muzzle brake with a quick-detach suppressor.

SPECIFICATIONS

KEY FEATURES

- Proprietary barrel exchange mechanism
- Monolithic aerospace-grade aluminum receiver
- Enhanced corrosion resistance materials suitable for operations in all environments
- Suppressor-ready muzzle brake with quick-detach suppressor
- Conforms to USSOCOM ASR requirements

SPECIFICATIONS

Length	1,307mm (depends on barrel length configuration)
Width	78mm
Height	190mm
Weight	5.2kg to 7.5kg
Barrel length	20"-30"
Calibers	.338 Lapua Magnum, .308 Winchester, 6.5 Creedmoor
Magazine	Box-type polymer, 10 rounds
Mode of fire	Safe/Fire
Operation	Bolt action
Buttstock	Foldable, adjustable cheek-piece, monopod
Controls	Ambidextrous safety and magazine release
Trigger	2-stage (adjustable)
Handguard	25 MOA MIL 1913 at 12 O'clock and M-LOK at 3, 6 and 9 O'clock positions; full-length ARCA rail on lower surface
Grip	AR type interface
